OUR MISSION
To support and enhance the education of students in the Bentonville Public Schools

www.bentonvilleschoolfoundation.org
2013-2014 HIGHLIGHTS

• National Board Certified Teachers are highly accomplished educators who meet high and rigorous standards through intensive study, expert evaluation, self-assessment, and peer review. In the past five years, the Foundation has awarded 32 scholarships to teacher/candidates pursuing National Board Certification.

• The BPSF Wall of Honor was constructed to serve as a permanent reminder of the benefactors who generously give to the Foundation. The Foundation Wall is maintained by the Bentonville Garden Club.

• The Foundation manages $58,938.17 on behalf of several community scholarships: The Ruth Hale Barker Scholarship, First Presbyterian Church Community Scholarship in honor of James Walker Vinson, Jr., Edna Putman and Carl Ottis Jett, and the Sara E. Symons Memorial Scholarship.

• Our Bold for Gold Campaign is held August–December. Last year, community leaders and district parents overwhelmingly showed their support, with the Foundation raising $108,219. Further, 100% of the Foundation Board of Directors personally pledged their financial support of our campaign. Additionally, designated gifts in the amount of $292,592 were given to the Foundation in 2013–2014. Together, these funds allowed the Foundation to award $374,331 for its 2013-2014 projects.

• In April 2014, the Foundation awarded 15 teachers a total of $38,137. Grants were awarded for a variety of creative and innovative projects and programs, all of which will enrich our students’ learning experience.

• The Foundation used a special gift to award $10,250 to the “Teacher of the Year” recipients. One teacher from each school was chosen by their peers. In addition, one was recognized as the “District’s Top Teacher of the Year”.

• The Fifth Annual Gold Rush 5k and fun run were held on May 3rd. Over 2,900 runners registered in the highly touted competitive event. The Foundation raised $69,676 providing proceeds of $48,808 for 21st Century Technology.

• The Foundation continued its focus on 21st Century Technology in 2013-2014 by awarding $100,000 to the district for four classroom sets of laptops/iPads, equipping each student with their own device.

• On May 13th, the Foundation recognized the top 20 Bentonville High School academic scholarship recipients at our Academic Signing Day Program. In addition, the teacher who made a significant impact in the academic success of each recipient was presented with a Teacher of Excellence medallion.

• In cooperation with the Bentonville Public Schools Foundation, the Bentonville School District established a new program to help increase the graduation rates. This program was made possible through the generous donation by the Care Foundation.

OUR MISSION DEFINED:
To support and enhance the education of students in the Bentonville Public Schools.

ENRICH educational opportunities and strengthen student achievement
INCREASE community involvement to promote quality education
SUPPORT teaching innovations and initiatives
ENCOURAGE parental participation for students to work at their highest potential
RAISE and provide funding for activities and projects which support academic excellence
ELEVATE public awareness of the Bentonville Public Schools Foundation.
WHY GIVE TO THE BENTONVILLE PUBLIC SCHOOLS FOUNDATION?

While operating independently, the Foundation strives to continually improve its deliberate commitment to the Bentonville Public Schools. We raise money, manage funds, make strategic program investments, foster creative and innovative teaching, and serve as community leaders so that all students have the opportunity to succeed. Our efforts have included driving student success and closing achievement gaps, supporting healthy students and exceptional learning environments, providing resources for teachers and classrooms, and fostering outstanding leadership in our schools.

Your invested partnership in the school district has the power to create a wealth of extraordinary learning opportunities for the children in our community. The best way to get a better grasp of our school system and our children is to be a part of it. Few things are more important to the community than its schools. With the support of individuals, families, companies and foundations our contributions are unlimited!

The Bentonville Public Schools Foundation not only cares about our schools, but also cares about our donors. You are the community leaders who understand the needs of its citizens and schools. You know what kind of an impact can be made through your gifts of time, talent and financial support. We appreciate you and thank you for your continued support.

Brandie Perry
Foundation Board President

BPS Foundation Board members present a check in the amount of $100,000 to Superintendent Mike Poore and members of the Board of Education for the Bentonville Public School District. The check will be used for the 21st Century Technology program.
**BUILD TO EXPRESS**

Colleen Nulty; Apple Glen Elementary School

The LEGOS Build to Express program will engage students in alternative methods of learning in order to build better communication, problem-solving, teamwork and relationship skills.

**FINCH ROBOTS TO PRE-AP INTRO TO JAVA AND AP COMPUTER SCIENCE A CLASSES**

Virginia Cocanower; BHS

Computer Science and related fields require an understanding of very abstract concepts. The integration of the Finch Robots in the curriculum will inject more hands-on, concrete and kinesthetic learning opportunities to aid in understanding abstract concepts.

**BEHIND THE LENS: STUDENT-CREATED DOCUMENTS**

Kim Foerster; Fulbright Junior High School

This project will enable students to excel at technology-related Common Core State Standards while focusing on critical non-fiction reading and writing standards. This will be done through the use of cameras, microphones and software.

**3-D CLASSROOM**

Dan Eddy; Fulbright Junior High School

3D printing will provide students with weekly opportunities to design create and optimize concrete solutions to abstract problems, allowing students the opportunity to experience next generation technologies while seeing the relevance of their work by affecting a positive outcome on the instructional toolset of other classes.

**OVERCOMING STAGE FRIGHT THROUGH IMPROVISATION THEATRE**

Laurie Harrison; Fulbright Junior High School

A two day workshop presented by a professional theatre company will help students overcome stage fright. Improvisational theatre creates a safe environment for students to become more confident in public speaking in other classes and activities.

**BUILD TO EXPRESS: BUILDING OUR WAY TO BETTER COMMUNICATION**

Nancy Orum; GT

Preparing students for the future requires their mastery of core curriculum in literacy as well as the 21st Century skills. Using LEGO Education BuildToExpress, the students will have an opportunity to build their way to better communication and creative thinking skills.

**ENHANCED TECHNOLOGY FOR STEM CURRICULUM IN GTT**

Leroy Roberts; Lincoln Junior High School

3D printing will provide students with weekly opportunities to design, create, and optimize concrete solutions to abstract problems, allowing students the opportunity to experience next generation technologies while seeing the relevance of their work by affecting a positive outcome on the instructional toolset of other classes.

**A HOLOCAUST SURVIVOR VISIT AND PRESENTATION**

Shannon Paxton; Lincoln Junior High School

A WWII Holocaust survivor and U.S. Holocaust Museum representative will present to 8th grade ELA and Social Studies students and faculty a personal narrative. This will connect students to the Holocaust unit of study, the stories of children of the Holocaust, and allow students to prepare questions for discussion in an opportunity to speak and listen effectively in a discussion with diverse partners.

**LITTLE FREE LIBRARY BOOKS**

Malissa Lopez-Horlock; Mary Mae Jones Elementary

Ten mini free libraries will be built from donated materials. Each little free library will be installed in low income neighborhoods throughout the community. Books will be purchased to stock the little libraries.

**LEARNING TOGETHER: PEER TUTORING, MATH TOGETHER**

Shelia O’Neal, Marisa Shofner; Ruth Barker Middle School

The Math Together peer tutor model allows for the student tutor to develop as a leader instilling confidence in the ability to help the tutor become a stronger math student.

**INQUIRING MINDS THINK SCIENTIFICALLY**

Kelly Wilson, R.E. Baker Elementary School

Students will become young scientists through the use of science notebooks, role play and inquiry labs.
Smart Inclusion: Assistive Technology for the 21st Century Classroom
Heidi Epperson, Special Services
This project will allow rehab professionals to open the world of interactive technology to students who otherwise can only watch their peers. They will be able to identify the most powerful and appropriate switch, joystick, rollerball, adaptive mouse, alternate keyboard or mounting system to best meet the needs of students.

Family Literacy Backpacks
Carol Halbmaier, Adrienne Gunter, Leslee Foreman, Kellie Pledger, Brittany Brown, Meredith Richard, Leah Cheek; Willowbrook Elementary School
Forty literacy backpacks will be created so that students may check them out for home use. The backpacks will contain science, social studies, phonics and poetry books. Activities designed to improve reading skills will be provided for the books.

3D Printing: Rapid Innovations in Educational Technology
Blake Matthews, Washington Junior High School
3D printing will provide students with weekly opportunities to design, create, and optimize concrete solutions to abstract problems, allowing students the opportunity to experience next generation technologies while seeing the relevance of their work by affecting a positive outcome on the instructional toolset of other classes.

Extended Bicycle Program
Martha Neal; Thomas Jefferson Elementary School
This program will extend the current bicycle program from seasonal to year-round with modification of existing bicycles into temporary stationary bicycles during the months of November to February.

Colleen Nulty and students from Apple Glen Elementary School accept a grant check for the LEGOS Build to Express program. The program focuses on developing teamwork and communication skills through alternative methods.
Students and teachers gather for a photo at Academic Signing Day on May 13, 2014. Academic Signing Day honors the top academic scholarship recipients at Bentonville High School, as well as the teachers who made the most significant impact on the students' education.
